

EMORY
UNIVERSITY

**University Research Committee
Fall 2008 Awards**

Abrams, Aaron

EC - Math

Discretized configurations and triangulations

Beardsley, Kyle

EC - Political Science

Disaggregating the UN: A Database of NUSC Resolutions

Chan, Anthony

Med. - Genetics & Mol Med

Induced Pluripotent Stem Cells of Rhesus Monkey

Cheng, Haiying

Yerkes - Neuroscience

Innovative physiological imaging technology and its application to retinal

Courtright, Paul

EC - Religion

Research in England for book on satire and caricature in early British India

Davis, David

EC - Political Science

The Influence of Human Rights Networks on State Behavior

Eichler, Jack

Oxford College

Molecular Design of Gold (iii) Anti-cancer Therapeutics

Elliott, Michael

EC - English

Civil Rights, Civil Liberties

Helms, My

Med. - Physiology

Does Rac1-mediated NOX activity regulate lung epithelial Na channels?

Kalaidjian, Walter

EC - English

Globalization and the Post 9/11 Literature of Disaster

- LeMon, Joel** **Theology**
The Iconography of Yahweh's Winged Form in the Psalms
- Manson, William** **Med. - Emergency Medicine**
Emergency Physician-Performed Thoracic Ultrasound Rapidly Identifies CHF
- Nahta, Rita** **Med. - Pharmacology**
Modulation of BRAC1 by curcumin in triple negative breast cancer
- Ono, Shoichiro** **Med. - Pathology**
Regulation of myosin during ovulation in C.elegans
- Reines, Daniel** **Med. - Biochemistry**
Mechanism of transcription termination by RNA polymerase II
- Searles, Charles D.** **School of Medicine**
MiRNAs and Regulation of Endothelial Genes in Response to Shear Stress
- Shepherd, Iain** **EC - Biology**
Identification of differentially expressed genes in the intestine of the zebrafish
ENS mutant lessen
- Shillingsburg, Alice** **Med. - Pediatrics**
Effectiveness of Direct Instruction with Children Diagnosed with Autism
- Sparks, Hollaway** **EC - Womens Studies**
Dissident Citizenship: Gender and the Politics of Democratic Distrubance
- Tretheway, Natasha** **EC - English**
Thrall: poems
- Wasse, Haimanot** **Med. - Nephrology**
Impact of Vitamin D on Arteriovenous Fistula Maturation in ESRD Patients
- Weiss, David** **Yerkes - Vaccine Res. Ctr**
Molecular mechanisms by which Francisella subverts host defenses
- Wright, Elizabeth** **Med. - Pediatrics**
Investigation of HIV-1 Assembly by Cryo-EM and Fluorescence Microscopy

Wright, Jacob

Theology

Admitting Defeat: War commemoration and the Construction of Nationhood in the Hebrew Bible

Yang, Shanshuang

EC - Math

Conformal Embeddings and Partial Differential Equations

Yu, Tianwei

PH - Biostatistics

Developing bioinformatics tools for large scale LC-MS data

Zafari, Maziar

Med. - Cardiology

Human Nox1 Promotor Polymorpgisms are Associated with CAD and MI
