

**EMORY**  
UNIVERSITY

**University Research Committee  
Spring 2005 Awards**

- Benatar, Michael**                      **Med. - Neurology**  
Normative Electrodiagnostic Data
- Carrubba, Clifford**                    **EC - Political Science**  
European Integration and the European Court of Justice
- Chen, Jing**                                **Med. - Winship**  
Therapeutic strategies targeting FGFR3 and overcoming drug-resistance in multiple myeloma
- Duncan, Erica**                          **Med. - Psychiatry**  
Acoustic startle in cocaine-dependent subjects and their first degree relatives
- Faundez, Victor**                        **Med. - Cell Biology**  
Genetic Analysis of Metazoan-Specific Mechanisms of Lysosomal Biogenesis
- Gandhi, Jennifer**                      **EC - Political Science**  
The Impact of Political Institutions on Economic Growth Under Dictatorship
- Gutierrez-Mouat, Ricardo** **EC - Spanish & Portuguese**  
Maps, Routes, and Networks: Modern and Postmodern Topographies of Latin American Literature
- Hartle, Ann**                                **EC - Philosophy**  
Montaigne and the Origins of Modernity
- Jinks-robertson, Sue**                 **EC - Biology**  
Strand-specific introduction of defined DNA lesions into the yeast genome
- Judovitz, Dalia**                         **EC - French / Italian**  
Virtual Bodies: Anatomy, Technology, Metaphysics in Descartes

**Labianca, Giuseppe (Joe) Bus. School - Mgmt.**

Interorganizational Monitoring: Process, Choices and Consequences

**Lukacher, Aron Med. - Pathology**

Manipulation of TCR Avidity to Improve CD8 T Cell Control of Persistent Virus Infection

**Moe, Christine PH - International Health**

Novel Approaches to Study Host Response to Norovirus Infection

**Nagy, James EC - Math**

Large Scale SVD Computations in Image Processing

**Nichols, Wylie Med. - Physiology**

Characterization of a new pathway for phosphatidylcholine internalization in yeast

**Nygaard, Lynne EC - Psychology**

Auditory Imagery for Spoken Language

**Olson, Darin Med. - Endocrinology, Meta. & Lipids**

NMR Spectroscopy of Carbohydrate Metabolism in Hepatic Insulin Gene Therapy

**Skibell, Joseph EC - English**

"A Curable Romantic" a novel in progress

**Sorescu, Dan Med. - Cardiology**

Role of reactive oxygen species in TGF-beta 1 induced cardiac hypertrophy

**Spencer, Trent Med. - Pediatrics**

Gene Therapy Strategies for Inducing Durable Allogeneic Hematopoietic Chimerism

**Wolff, Phillip EC - Psychology**

Causal Reasoning in Individuals and Groups
